Practical 10.04.2018

1. Items unsolved from the last Sprint 2 agenda:

- Tables - Peng and Chen: easier to get the data with 2 tables, 1 table is very large. If we need to change a structure of the table we will neeed to change a lot of code.

- OpenWeather - use the file Professor sent to us with historical data

- Points

3. Weather part - saw it

4. Access to Amazon – Still don't have it

5. Tasks left - complete this week
